STOCKS IN THE EAST OF PROFESSION OF R. & N.

Small Range of Prices Considering Extent of Activity.

WEEKLY BANK STATEMENT

FOLLOWED BY SLIGHT HARDEN-

Recuperation In the Proportion of Reserves Almost Wholly Due to Coan Contractions-Market Sensitive to the Money Situation During the Week.

New York, Nov. 18.—The notable thing in today's stock market was the small range of prices considering the extent of the activity and the wide dis-

The prospers.

The tent of the activity and the wide disburtion of the dealings. There was a mitimous demand during the whole of it wo hours' session, the while holds.

I like remitting and while holds.

I may be considered on any signal of the properties of ordinated on a properties of the market back from any advance, but this week agregate \$37.765 slive bars and come of the hold that the local traction shares and some of the metal stocks. Glucose rose \$45.

Minnespolla and St. Louis preferred gained \$24. The large advance in Sugar Invited active realizing an ame cause.

The bank statement was followed by a slight hardening at points, but this did not last and the market closed casy at mixed ret changes. The recuperation in the proportion of bank reserves in the sum of over \$5,000,000. which has been paid to the market by the sub-treasury in the last three days for bond redemptions. seems to find almost reflection on the statement. On the other hand the showing of lond aimst reflection on the statement. The banks have been lenders during the latter part of the week of sufficient sums to largely off-set the earlier contraction. The tender in reserves met expectations.

The sensitiveness to the stock market to developments in the more yell-contraction of the deficit in reserves met expectations.

The sensitiveness to the stock market to developments in the more yell-contraction of the deficit in reserves met expectations.

The sensitiveness to the stock market was also fed by a signal statement to the force and the stock market was dominated by this infinience for the reserve, was also for land to over the point of the stock of the stock

using a reactionary tendency of ocks. The money situation had improved by educated by educated by educated by educations from sundry sources and the haxation in the demands of the subsessing of the local money supply, ander these conditions the stock martices are the second that the second that the second that the second that the second money supply as being rapidly diverted to an expansion of credits for purposes of speculia.

The extent to which the treasury suffer of bond redemption has already been availed off is not easily explained in comparison with the slight response to the offer to anticipate the fiscal year's government bonds interest. Less than a per cent of the total amount of interest thus offered has been taken, notwithstanding the continuance of money stringency in New York.

There has been some recent accumulation of government bonds by New York banking interests, parity in the hope that they would become available as security for additional government deposits and partly in the hope that they would commence buy the government would commence buy the government would commence buy.

"Perfected" Oxygenor King

The principle involved in the method of curing disease without medicine, through the medium of the "Oxygenor," is Oxygen. This science is far in advance of medication, or any known form of freeing the system form disease. If is nature's plan. By using the "Oxygenor," the entire body, through the porce, takes on Oxygen by capillary attraction and absorption, which is immediately taken up by the capillary attraction and absorption, which is immediately taken up by the capillary attraction. This revitalization of the blood is commenced at once throughout the entire system; as Oxygen is life, when the health-giving element comes in contact with the disease organ, its such as the commences to yield to its influence, and disease is carried off through the natural channels. The time required for the system to become thoroughly under the influence of this treatment by the "Oxygenor" varies from a few minutes or hours to days or weeks, according to the nature of the disease, constitution, etc.

HOW TO OBTAIN THE PERFECTED

"OXYGENOR KING."

A STATE BUREAU for the distribution of the PERFECTED "OXYGE-NOR KING" has been established in Salt Lake, a most fortunate thing for the people of Utah and surrounding S'ates. Our offices are in the D. F. Walker Biock, Room 211-212, where for many months past we have received a steady stream of visiters anxious to investigate the new and powerful agency which is doing so much to restore the sick to health. Men, women and children are constant visitors, and to one and all we are prepared to extend exactly the needed word of counsel and instruction. Not only do we give all the oral explanations desired as to the methods of applying these instruments, but we supply circulars, pamblets and other printed matter to enquirers. Best of all, we refer those who prefer the direct testimony of those who have been benefited to hundreds of the best citizens of Salt Lake and neighboring places who take \$p'-asure in saying that the instruments are all that has been claimed for them, curing all discusses with wonderful rapidity. It is surprising how enthusiasile the users of these instruments are over their merits. "I would not take a thousand deliars for mine if I could not obtain another," is an expression heard scores of times on the streets and in the best houses in Salt Lake. "It gave me the first seand sleep I had had in years," is another common form of praise. "I have the appetite of a 16-year-old boy since I began using it," is also a common expression. These declarations show that the instruments strike at the very foundation of disease. If you can eat heartily and sleep soundly and refreshingly, digesting your food in a thorough manner, you can drive any disease out of your body. It is oxygen's work facilitated by nature's great DRUG-LESS REMEDY, the "OXYGENOR KING."

The Most Successful Method of Curing Diseases Ever Discovered.

Scores of Thousands of Supposed Hopeless Cases of Disease Cured. A Perfect System for the Cure of Disease Without Medicine or Electricity.

Multitudes Rapturously Applaud the Truly Marvelous Achievements of This Scientific Instrument, and Unqualifiedly Recommend it to Suffering Humanity.

SAVED HER LIFE.

Typhoid Fever.

Salt Lake City, Utah, Sept. 15, '99.

August 30th my wife was suffering from Typhoid Fever of several days' standing, and was growing rapidly worse; in fact, she had become so bad that our families had gathered around

Through a friend's anvice I product
an Oxygenor and applied it at case.

Candidly, at first I regarded twentyfive dollars of vastly more value than
an Oxygenor, but when life had become
was out of all pain, fever reduced and
to be a burden because of continues,
to be a burden because of continues.

Powerful Statement of NINA E. ELLISON. Author of the Popular "Nadine."

Gentlemen:-Replying to your request

for a few lines regarding the Oxygenor, I take pleasure in stating my own ex-

One dispikes to be humbugged by some one of the numerous fake vendors into buying his worthless drugs and wares, therefore when first introduced her bedside, fearing that she could live but a few hours longer.

Through a friend's advice I procured
the benefit of a large skepticism.

Candidly, at first I regarded twentyfive dollars of vastly more value than
an Oxygenor, but when life had become
to be a burden because of continued
sickness, when no ling gave relief, then
I began to constitute this unique product
of medical science. It was brought to
me and explained as nothing more nor
less than an instrument to flood the
human system with pure oxygen. Being a little conversant with Nature's ature was 166, and in three hours she was out of all pain, fever reduced and resting quietly.

The following morning I discharged my family physician, who told me my wife would die, but instead she became rapidly better, and was soon out of all danger. I used nothing but the Oxygenor, so I positively know it saved he meant.

The Oxygenor was a Godsend to me, and I recommend it to all as the greatest curative agent I have ever heard of. THOMAS ROBINSON, 112 North 8th W.

Subscribed and sworn to before me this 15th day of September, 1899.

GEO. N. LAWRENCE, Notary Public.

An Oxygenor, but when life had become to be ause of continued sickness, when no ling gave relief, then I to be a burden because of continued sickness, when no ling gave relief, then I began to consider this unique product of medical science. It was brought to of medical science. It was brought to form the sunique product of medical science. It was brought to form the sunique product of medical science. It was brought to form the sunique product of medical science. It was brought to form the sunique product of medical science. It was brought to form the sunique product of medical science. It was brought to form the sunique product of medical science. It was brought to and explained as nothing more nor less than an instrument to flood the human system with Nature's law, I am aware that oxygen is an antidete for the polson engendered by the different disease germs, I decided to test its efficiency. Having a complicated case of lung trouble and heart trouble and the oxygenor contained to any one distinct the Oxygenor contained that a child can use it. I unbestiatingly recommend it to anyone all the oxygenom but a child can use it. I when the oxygen is all right, the being that a child can use it. I what to anyone all the one product that a child can use it. I what to anyone all the oxygenor is all right, the being that a child can use it. I what to anyone all to anyone all to anyone all to anyone all the oxygenor is all right, the being that a chil

Endorsed by Deputy County Clerk Geo. E. Blair.

Gentlemen:—I have used your "Per-fected Oxygenor King" with excellent results. It has relieved me of rheuma-tism and by its use I broke up an incip-lent attack of typhoid fever. I heartly recommend its careful investigation by all seeking relief from disease. Yours very truly. Salt Lake City, Utah, Oct. 25, 1899. ygenor Co., city.
